COPENHAGEN

ARENA COPENHAGEN is an innovative jewellery brand that cultivates creativity and promotes a close collaboration between jewellery designers letting each designer endorse its individuality - resulting in exceptional shapes and designs.

Arena CPH has gathered some of Scandinavia's most talented jewellery designers in a creative forum - where classic and modern jewellery traditions meet each other. Inspiring and being inspired by others is the foundation of Arena Copenhagen's creative concept.

THE BRAND plays with the energy that arises from a sphere of exciting contrasts. The designs originate from a mix of minimalistic Scandinavian design traditions and strong graphic expressions - sometimes broken by elegant and detailed jewellery traditions - and create a style that is innovative, unconventional and highly appealing to quality-conscious customers.
